2. LOCATION

CITY OF ZAGREB

The city of Zagreb is the capital of Croatia and the cultural, scientific, economic, political and administrative centre of the Republic of Croatia. It is home to the Croatian Parliament, Government and President. Its favourable location between the Pannonian plain, the edge of the Alps and the Dinaric range has allowed it to become a crossing point for mass international communication. The city is protected from the cold northern winds by the mountain of Medvednica and opens up to the rest of the world thanks to a spacious plain and the Sava river.
